

Apriza Prasetyo

✉hello@apriza.dev ☎+62-877-4747-4015 📍Jakarta, Indonesia

Summary

I'm an experienced Full Stack Developer with a strong track record at a large enterprise company. I'm passionate about software development for both web and mobile platforms. I specialize in building scalable applications using .NET (C#) for the back end, React/TypeScript for the front end, and React Native for mobile. Currently looking for opportunities and open to relocation.

Experience

PT United Tractors Tbk

Jakarta, Indonesia

Full Stack Developer

May 2023 - Present

- 1. Developed and optimized a heavy equipment maintenance microservice using .NET and PostgreSQL, improving query response time and reducing system downtime.
- 2. Built and maintained the Corporate Sport Event Web Application using React, TypeScript, Vite, and Material UI to support internal company activities.
- 3. Developed the Heavy Equipment Management Android Application for company operations smoothly using JavaScript and React Native.
- 4. Mentored internship developers from the Merdeka Belajar Kampus Merdeka (MBKM) program and UT School On Job Training (OJT).
- 5. Documented the business processes and software architecture clearly using Microsoft Azure Wiki to help the team understand the system better.
- 6. Managed code, testing (E2E and stress testing), and development tasks collaboratively using Microsoft Azure DevOps, Azure Pipelines, and Git.

Full Stack Developer Intern

Dec 2022 - Mar 2023

- 1. Developed a full-stack web application prototype in an agile 3-person team environment.
- 2. Separated the Front End and Back End repositories to keep the project clean and organized.
- 3. Used React for the Front End technology stack and .NET for the Back End.

Skills
